Government Autonomous College, Angul

Government Autonomous College, Angul is a premiere institute of higher education in the central part of Odisha. The foundation stone of the college was laid by Dr. Harekrushna Mahatab, the then Chief Minister of Odisha on 25th December 1957. The college started functioning from 1st July 1958 with 64 students in the I.Sc. class. Those days, it was named Intermediate Science College, Angul. In the following year, the faculty of Arts was opened. The faculty of Commerce was added much latter, in 1978. From a handful of 64 students, the college has grown leaps and bounds to about 5400 students at present.

Initially known as Intermediate Science College, Angul, it was renamed as Science College, Angul in 1969. In the same year, it was rechristened as Angul College, Angul. In the year 1976, its name underwent change once again. It came to be known as Government College, Angul. With the conferment of Autonomous status in the year 2006, it was known as Government College (Autonomous), Angul. It is presently known as Government Autonomous College, Angul.

It was a composite college with provisions for Higher Secondary, Degree and P.G. teaching facility under the same roof until 2001. But as per the government notification no 29412/HE dated 15.05.2001, Government Autonomous College, Angul and Government Junior College, Angul got separated.

Presently, the college has provision for teaching in Arts, Science, and Commerce UG and PG programmes. There are 19 PG and 21 UG programmes. The student strength has gone up to 5400. There are two study centres—one by IGNOU and the other by OSOU. There are 03 hostels for men and three hostels for women, providing accommodation facilities to more than 400 outstation students. The HEI has been accredited with B grade in 2006 and B+ in the year 2016 with NAAC. Accreditation process for the third cycle is on.

Principal's Message

Government Autonomous College, Angul is a premiere institution of Higher Education in Angul District in the state of Odisha. Established in the year 1957 by the then Chief Minister of Odisha, Dr. Harekrushna Mahatab, the college caters to the educational needs of not only the students of Angul but also its nearby districts like Deogarh, Phulbani, Boudha, Sambalpur etc.

The college has grown leaps and bounds in the past 67 years. From a meager 64 in the opening year, the student strength has gone up to 5400. There are UG teaching facility in 21 subjects and PG teaching facility in 19 subjects.

The infrastructure has grown substantially with provision of residential facilities in 03 Men's and 03 Women's hostels. More than 400 outstation students are accommodated here. There are more than 35 class rooms, adequate laboratories, a Language Laboratory, 04 Smart Class Rooms besides a library with about 45000 books. Students can use Infilbnet facility that provides access to lakhs and lakhs of books, magazines and journals on-line.

It's true that the college has grown in terms of quantity and quality, but there is need for further consolidation, keeping the global needs and developments in view. Since the HEI is situated in an Industrial Hub, industry-institute interaction and participation should receive a boost. More numbers of job-oriented courses need to be introduced.

There is need of raising the college into a Centre of Excellence. For this, all stakeholders should play their roles and contribute to the success of the HEI.

IDP can infuse quality by augmenting infrastructural and educational facilities of this HEI. I seek more funding from the institution in the days to come.

I wish this great centre of learning all the very best.

General Instructions

The National Education Policy (NEP) 2020 recognises the importance of Institutional Development (IDP) Plan and recommend that each institution will make a strategic Institutional Development Plan.

The basic objective of the Institutional Development Plan is to make students a successful citizen by improving the quality and infrastructure of educational institutions. It will be act as an indispensable tool through which higher education institutions will be encouraged to decide their mission, vision, and goals and document those in the form of their Institutional Development Plans (IDP) that leads to design and implement programmes that will enhance their entire ecosystem, which includes faculty, students, infrastructure and facilities, avenues for research and development, internal and external stakeholder engagements and many other elements. This will help institutions to face the challenges in progressing towards multi-disciplinary framework in its letter and spirit as mandated in NEP 2020. The framework shall provide an insight to HEIs as to how infrastructure facilities will be upgraded, student support systems such as curricular, cocurricular, research, sports and recreation facilities will be augmented and academic deficiencies like laboratories, etc will be addressed to bring them at par with the best institutions to attract the best talent in teaching and learning. The IDP will not only be standalone plans but shall have multifaceted interfaces to look into the perspective of the institution holistically.

Objectives of the IDP:

- Clearly define the mission of the institution.
- In light of the mission, carry out a needs assessment based on wide consultations to identify the goals, priorities and commitments of the institution.
- Quantify the institution's goals using indicators and time-bound targets.
- Based on goals and priorities— identify capacity (human and financial) and organizational gaps and steps to bridge these gaps.
- Develop annual activity plans which result, sequentially, in achieving the institution's goals. These activity plans will also serve as a tool for monitoring the implementation of the IDP.

The IDP will be a living document, evolving with the increase of its strategic planning capacity. The indicators and targets, however, will be agreed upon in an MOU between the Department of Higher Education and the institution. These can only be amended with the Department of Higher Education's consent. Data on any variable contained in these tables shall be drawn from the same source when it appears in any other part of the IDP.

IDP Development Steps:

- Identify the Coordinator in charge of developing the IDP and assign responsibilities to other staff.
- Carry out SWOC analysis and needs assessment, documenting the consultations held and the conclusions and recommendations reached.
- Based on the needs assessment, identify the goals, priorities and commitments of the institution.
- Draft an initial version of the IDP including indicators and time-bound targets.
- Share the initial draft of the IDP for consultations with all stakeholders.
- Finalise the IDP, based on the comments received.
- Identify the activities required to achieve the goals stated in the IDP and incorporate them into annual activity plans.

Institutional development means building the capacity and image of institutes by initiating, mobilizing and managing resources. The implementation grants will be awarded based on a competitive selection process carried out by a committee appointed by the Department of Higher Education. Approved IDPs will be published on the institution's website. The institution will be responsible for reporting to the Department of Higher Education on IDP implementation and progress against targets, based on timelines and formats prescribed by the Department and contained in the Memorandum of Understanding (MOU).
